Company Overview

Prism Environmental Management Services is a multi-disciplinary Environmental Management consulting firm. With a vision encompassing a holistic understanding of integrated environmental management in partnership with sustainability, the company prides itself on excellent service and value-added solutions to a range of clients. Established in 2005, the company has grown from strength to strength.

With exceptional field-expertise, command and execution of the relevant legislative requirements and report quality, the company is recognised by clients, fellow consultants, and various Local and Provincial Authorities as a prominent service provider in our field of consulting.

De Wet Botha

Principle EAP
Wetland Specialist
Juliana's Golden Mole Specialist
Green Drop Certified Auditor

De Wet is supported by a team of Specialists, EAP's, Junior Consultants and Admin Staff at Prism EMS

About Us

Since 2005

2025 marked a significant milestone as we proudly celebrated our 20th anniversary. Over the past two decades, Prism EMS has grown from a small startup into a respected leader in our field of consulting, thanks to the unwavering support of our clients, partners, and dedicated team members. This anniversary was not just a celebration of longevity, but a reflection of our commitment to progress, ongoing improvement of skills and knowledge, and quality service. As we honor our past achievements, we also look forward to a future filled with new opportunities, continued growth, and environmental conservation for generations to come.

Vision

Continuous, Sustainable Growth
Through Environmental
Management Excellence

Mission

Prism EMS is a specialist environmental services provider, assuring excellence in environmental resource assessment and management.

We stand in partnership with our clients, our employees, the community and the environment.

Our ambition is to conserve resources, preserve natural habitats and prevent significant environmental impacts, by means of sustainable utilisation of our precious natural resources.
